VISIONE

PRODUCT PRESENTATION
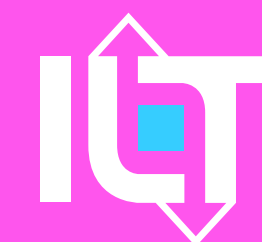

WHAT IS VISIONE?
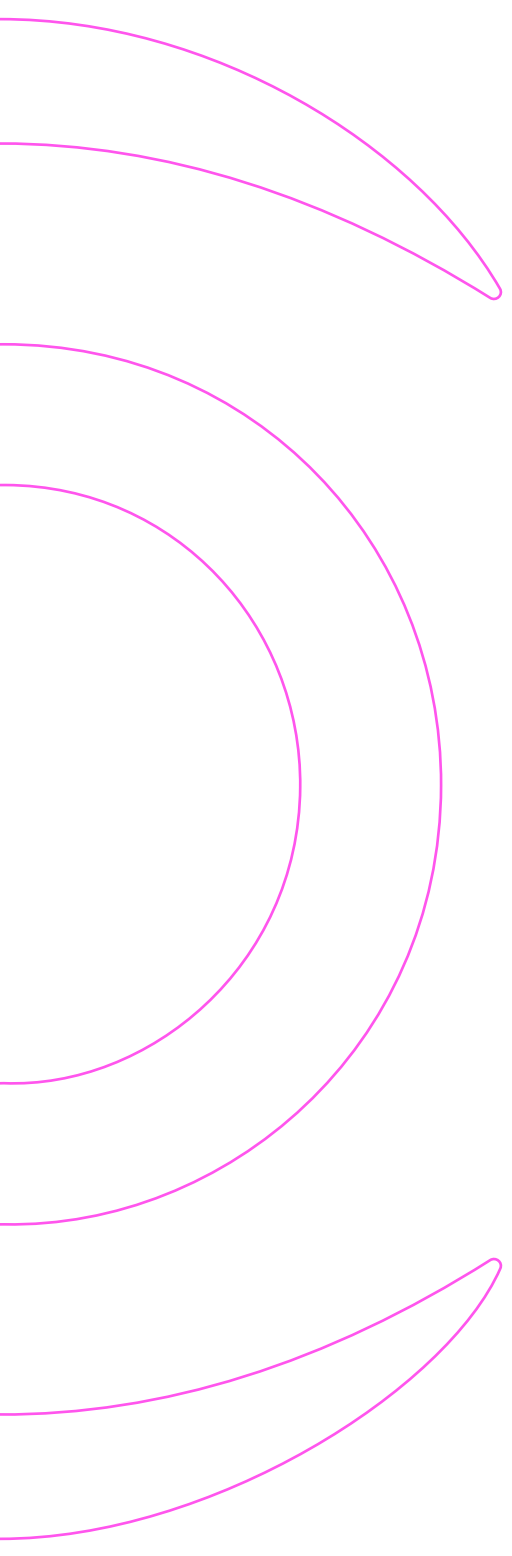

AN INTERIOR EYE

A tracking software designed purely for internal use.

VISIONE

IDENTIFICATION

The platform focuses on monitoring the state of products, equipments and workers by assigning each a QR code, which works as an identikit that can be checked at any time within the software.

VISIONE

ARCHIVE

The platform can manage and store any type of file, while also mantaining an ever accessible history of updates and details.
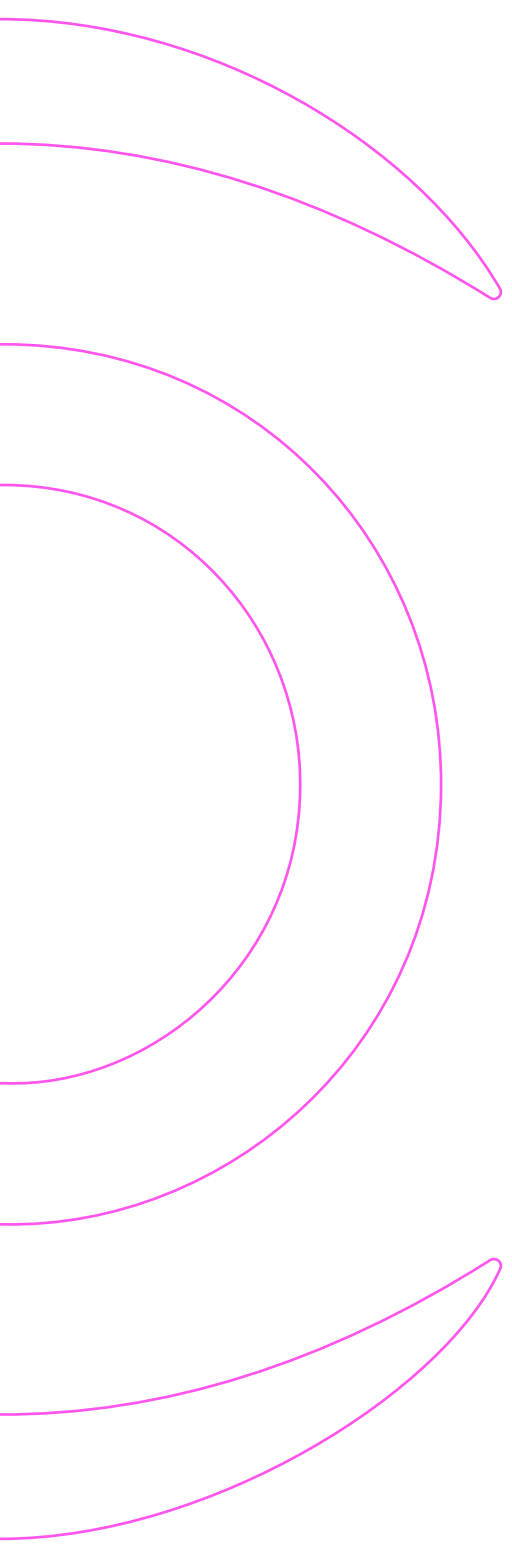

VISIONE

SCHEDULE

The software is able to keep track of any appointment related to equipment or workers, such as:

- ◆ Equipment inspections and orders.
- ◆ Courses of formation.
- ◆ Expiration dates of documents and certifications.
- ◆ Mandatory health checks.
- ◆ DPI/DPC.
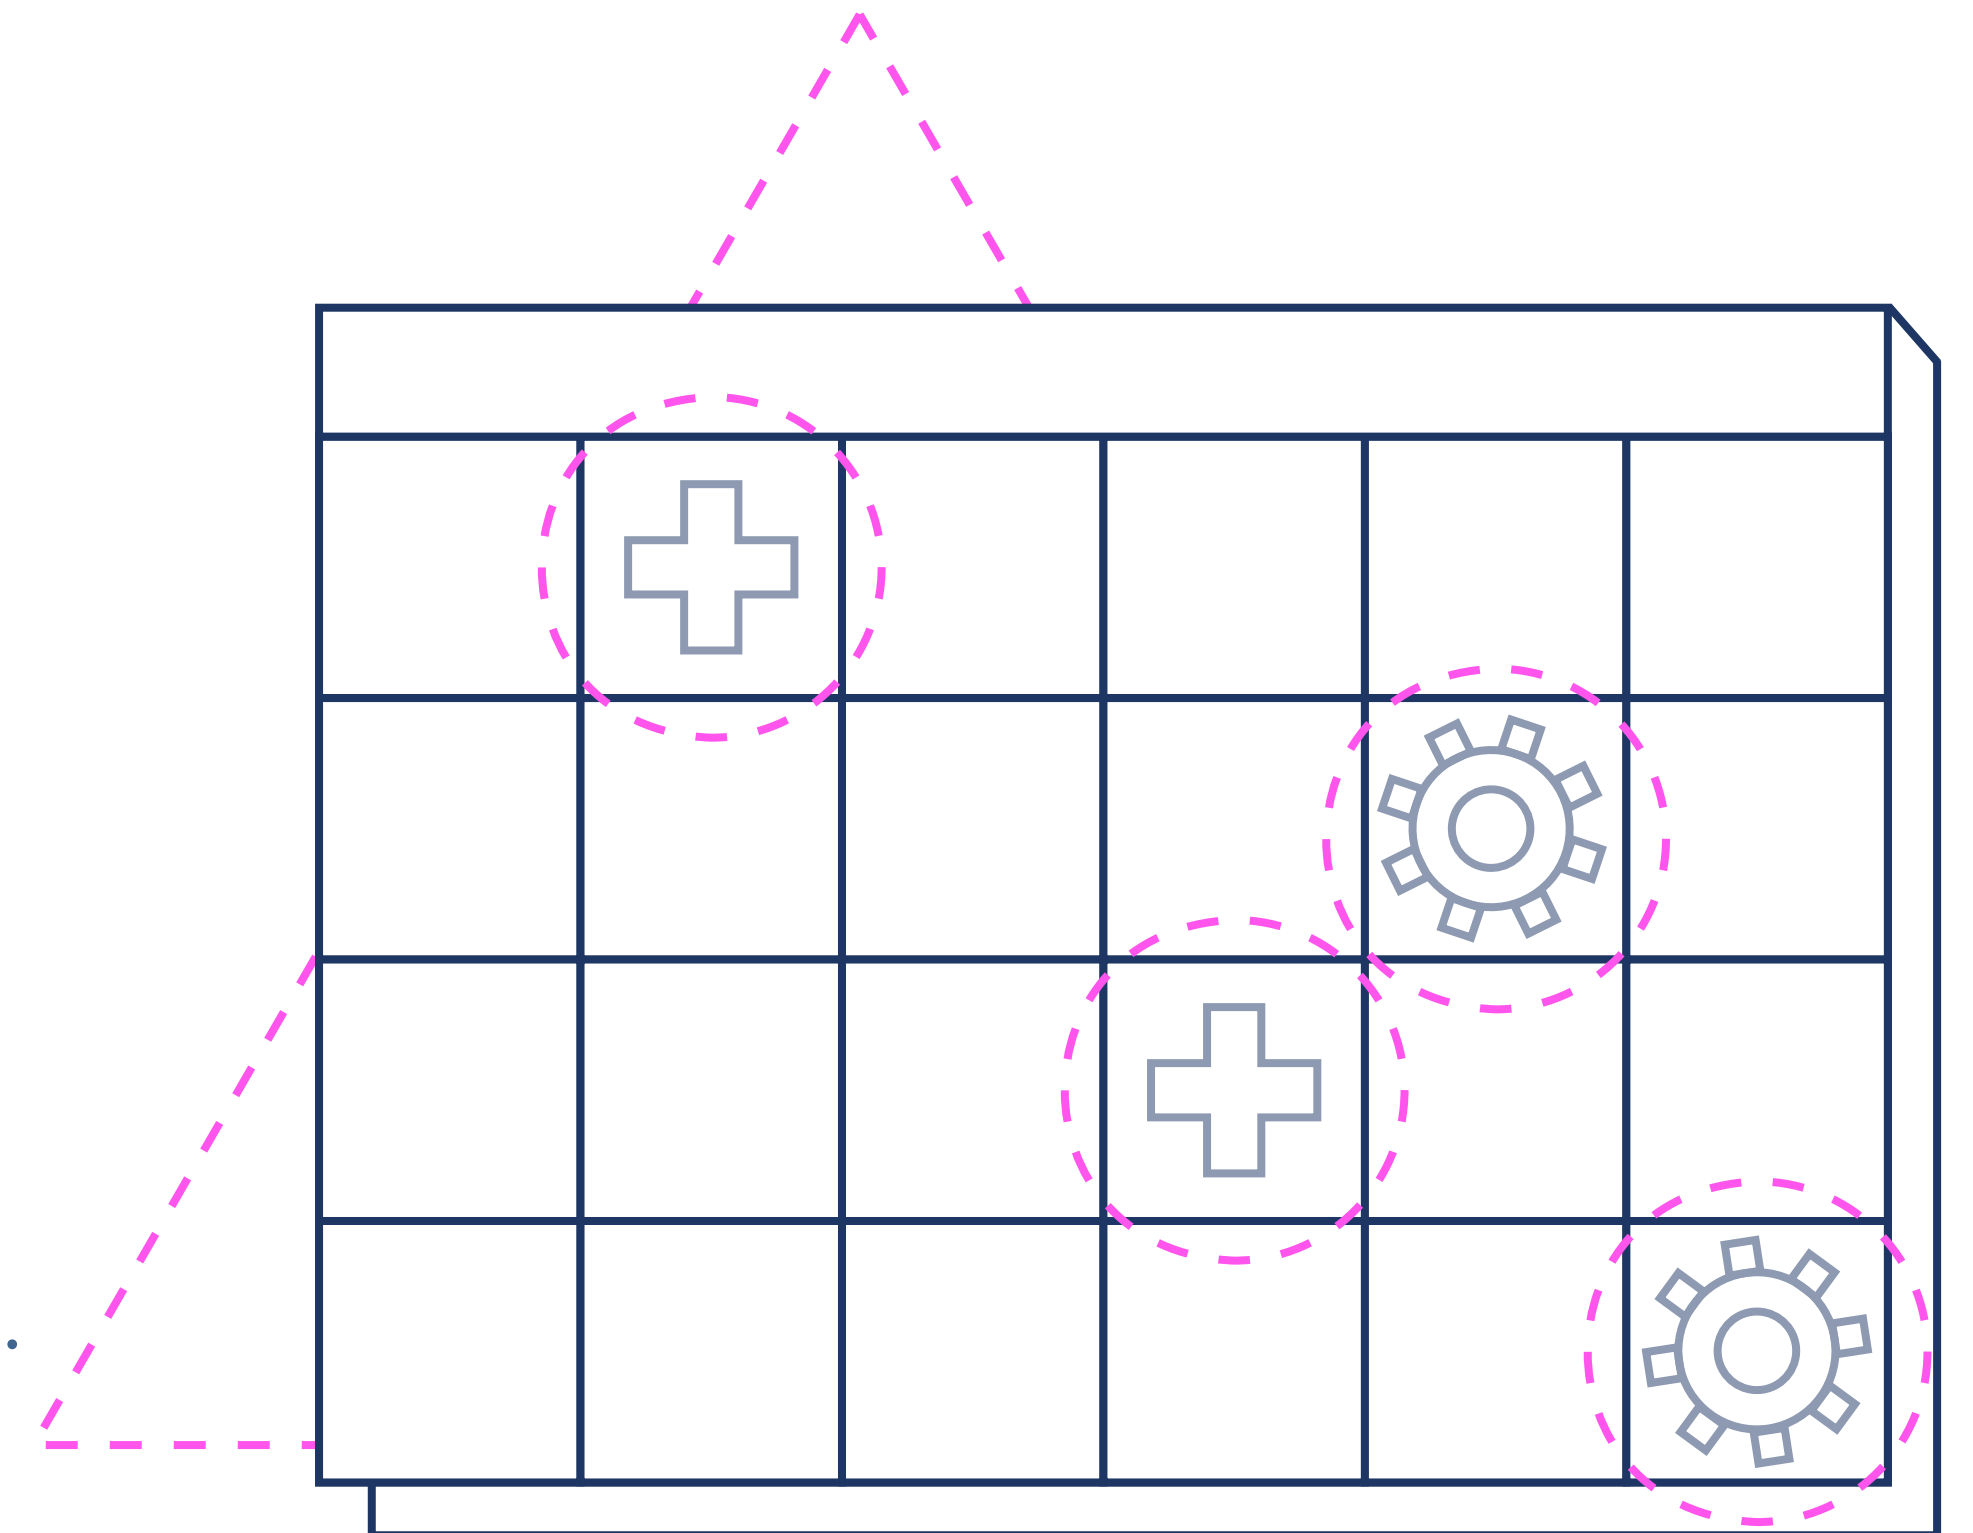

HOW DOES IT WORK?

ALL IT TAKES IS A QR CODE

Simply point the QR reader on your phone to obtain all the data about the single item, person or piece of equipment.

VISIONE

OVERALL BENEFITS

Thanks to such a simple yet complete instrument, every actor of the productive chain can be informed and take action in real time in any operation, therefore improving the efficiency and the customer experience .

THANK YOU FOR YOUR ATTENTION
